WENTE VINEYARDS

1

Decades ago, Jim Douglas, was brought in to the Wente team to produce concerts, helping shape the Wente brand to what we know today. Known for bringing the biggest names Livermore has ever seen, the concerts at Wente Vineyards have been highly regarded as one of the most iconic and memorable live music and comedy experiences in the region, attracting both touring audiences while enhancing the winery's own club member base.

“Working with Prime Time Entertainment feels like working with a true partner. They’re responsive, organized, and genuinely care about making each event successful. Having all the gear and expertise under one roof makes production smooth, efficient, and stress-free.”
-Ann Ogden, Director of Sale at Wente Vineyards

WHAT HAVE WE DONE FOR WENTE OVER THE YEARS?

1. We curated a lineup based on the winery's goals. What did they want to achieve with this series?

What is our "WHY".

2. We worked hand-in-hand with the artists from the moment the offer was sent, to the night of the show. Managing riders, providing backline rentals, going through technical requirements and logistics with artist management, as well as fine-tuning the schedule, sometimes even running rehearsals the night before!
3. We provide insurance, as well as safety plans. Ensuring a secure environment for our crew, artists, the audience and winery staff has been foundational to our work.
4. We set-up everything... staging, sound systems, instruments, Lighting, etc. **Our crew is very well-rounded in event logistics.**
5. Day of-Show, we are there all day. Stage management is essential to making sure the show goes off without a hitch! Having a manager who knows the cues, and knows how to troubleshoot whether it's an audio issue, logistical hurdle, etc, will make or break your event!

CITY CENTER BISHOP RANCH SAN RAMON

2

THE WHY

This is a young shopping center, opened only since 2018. When PTE helped launch the free jazz series, the goal was to create a world class live music experience that showcased the shopping center as a cultural destination, while creating a space to bring the local community together in a vibrant and welcoming setting.

WHAT FEELING DID WE CREATE?

During the 3 shows at this annual concert series, we created an atmosphere where the community could gather and connect over music. People of all ages and backgrounds, travelers, locals, and everyone in-between indulge in the joy this casual, yet accessible, setting brings.

PTE played a key role by consulting and during every step of the process putting this concert series together. From artist suggestions, to negotiating offers, managing riders, providing all staging, sound, lighting, onsite staffing, cartage, stage management...

This was one of our favorite full-service productions to put on!

FREMONT CREATES FINALE

FREMONT CREATES

This unique annual event was piloted with the help of PTE's expertise. It was the final celebration to close out an entire month of city-wide activities spanning dozens of businesses in town. This non-profit organization was started to highlight the cultural diversity and talent of the Fremont- area's residents. PTE's staff helped select performers to ensure a diverse representation of cultures and art forms, organized all of the performers technical needs, provided all the staging, multiple sound systems, and technicians for the full day of performances and activities, as well as onsite stage managers to keep the show running on-time across 4+ stages.
